

Appendix

All participants were asked to complete a summative survey on their experience after the conclusion of the pilot workshop. Aggregate results are shown below. Qualitative responses are excluded due to the small sample and likelihood for re-identification. Thirty-one individuals were asked to complete the survey, with twenty-nine responses collected (n=29). The instruments for the pilot workshop formative paper surveys used for individual data type modules, the summative survey, and the cohort survey are also included within this Appendix.

DCN IMLS Specialized Data Curation Training: During Workshop Survey

[Insert Data type: Code/Geospatial/Simulations/Scientific Images]

Preamble

Please take a few minutes to reflect upon the curriculum materials and learning experience for the [insert data types] module. You will have an opportunity to provide more detailed feedback after the workshop as well.

On a 1-5 scale, how much experience do you have curating/working with this data type?

1		2		3		4		5
Very Experienced				No Experience				

Please indicate what extent you agree with the following statements

1. The learning objectives as stated were met.

Strongly agree | Agree | Neither agree nor disagree | Disagree | Strongly disagree

2. This module better prepared me to approach the curation of this data type.

Strongly agree | Agree | Neither agree nor disagree | Disagree | Strongly disagree

3. The timing and flow was appropriate for the content being presented.

Strongly agree | Agree | Neither agree nor disagree | Disagree | Strongly disagree

4. The module engaged me in active learning that supported the learning objectives.

Strongly agree | Agree | Neither agree nor disagree | Disagree | Strongly disagree

5. Indicate your general satisfaction with this module.

Extremely Satisfied | Satisfied | Neutral | Dissatisfied | Extremely Dissatisfied

Comments regarding your rating:

7. What are three things you think worked well/you found the most useful in this module? And why? (open ended)

8. What are three things that you think could be revised or were less useful? And why? (open ended)

9. What other comments would you like to share with the instructors?

Default Question Block

Thank you for attending the Data Curation Network Specialized Data Curation Training on October 17–18. This survey will ask you questions about your experience, satisfaction, and feedback on the workshop materials. We estimate the survey will take about 10 minutes to complete. Your responses will help us to evaluate and improve the workshop materials. No identifying information will be collected within the survey, however, given the small size of workshop participants, we cannot promise complete anonymity. The results of this survey may be shared in publication and presentations. This survey is authored and administered by individuals in the Data Curation Network and funded by the IMLS project “Developing Specialized

Data Curation Training to Address Needed Expertise in Focused Areas” (RE-252343-OLS-22) Questions or concerns: Contact the Principal Investigator, Sophia Lafferty-Hess (sophia.lafferty.hess@duke.edu).

Please indicate what extent you agree with the following statements.

The pre-workshop communication helped prepare me to engage with the workshop materials.

What are three things that you think could be revised or were less useful? And why?

What other data types would you be interested in seeing specialized data curation training developed for in the future? (check all that apply)

- ☐ Human subjects (general)
- ☐ Clinical research data
- ☐ Databases
- ☐ Audio/video data
- ☐ Qualitative data
- ☐ Sequencing data
- ☐ Others

Are there suggestions you have for further disseminating these workshop materials? Are there any groups you would suggest we engage with for dissemination?

CURATED Training

Default Question Block

Thank you for participating in the IMLS grant project “Developing Specialized Data Curation Training to Address Needed Expertise in Focused Areas.” Your role was essential and we highly value your feedback on your experience. This was a planning grant and we hope to use the knowledge we gained in this project to apply to future DCN initiatives and opportunities to engage with the cohorts! Please complete this brief survey, it should take around 10 minutes. Your responses will help us to evaluate the project and improve for the future. No identifying information will be collected within the survey, however, given the small size of cohorts, we cannot promise complete anonymity. The results of this survey may be shared in publications and

presentations.

Questions or concerns: Contact the Principal Investigator, Sophia Lafferty-Hess (sophia.lafferty.hess@duke.edu).

Please indicate what extent you agree with the following statements.

Communication during the project helped prepare me to achieve project goals.
